NETBALL PLAYERS ON TOP

LPU Netball players who represented the Punjab Netball Women Team went on to bag the sparkling Silver Medal in 36th National Games in Gujarat! We convey our congratulations to our wonderful young women on this feat.

VERTO ATTENDS IAC 2022

LPU B.Tech. student Jahnavi Dangeti got the amazing opportunity to represent LPU at the International Astronautical Congress held in Paris.

World University Rankings 2023

Times Higher Education World University Rankings 2023

Ranks LPU

23rd

amongst Top Universities of India

(Both Government & Private)

801-1000 Band - World Wide

Through an innovative approach towards challenging the current status quo, Lovely Professional University (LPU) has been ranked 23rd amongst all Indian universities/institutions in Times Higher Education (THE) World University Ranking.

THE World University Rankings-23, a prestigious globally recognized rating system, has placed LPU in the 801-1000 Band on a global scale. Previously included among the top 36 Indian universities in THE World University

Rankings- 2022, this is once again one of the best accolades won by LPU. This time the climb up the ranking ladder has been an escalating one, improving the previous ranking record by 13

spots and getting placed in the top 25 Indian institutions. In comparison to many of the participating universities from across the world, LPU is just 17 years old and is already a part of the global higher education landscape.

THE World University Rankings' provide the definitive list of the world's best universities, with an emphasis on the research mission. It uses 13 carefully calibrated performance indicators to provide the most comprehensive and balanced comparisons.

LPU girls shine at 36th National Games

LPU girls representing various states across India shine at 36th National Games held in Gujarat. Four LPU students representing Punjab team help the team win Gold medal. LPU girl representing Kerala team help them win Silver medal. LPU girl representing

Chattisgarh help them win Bronze medal. What an amazing performance all round.

Almost 7,000 athletes from 28 Indian States, eight Union Territories and Services, the sports team of the Indian Armed Forces, competed for medals in 36 different sports.

LPU Engineering, Design vertos won 'Study Australia Entrepreneurship Challenge'

Five of the B Tech & B Design 3rd year students of Lovely Professional University (LPU) have won at the 'Study Australia Entrepreneurship Challenge (SAEC-2022)' in New Delhi. The Australian Trade and Investment Commission (Austrade- Australian Government agency) organized this competition.

The competition was in two stages and after competing with 45+ teams from across India, LPU students were invited

The competition was in two stages and LPU team competed with 45+ teams

by the Australia High Commission for the event in New Delhi. The team's theme in this challenge was creative industries. Working as a multidisciplinary team named 'Glovis Rise' LPU students focused on solving

"Gaming Addiction" in teens, pre-teens and adults as a problem statement. As a solution, they devised an app that solves this problem.

LPU students' idea won the second runner-up prize with 500 dollars each and a certificate. Their team was sponsored by 'Study Queensland'. The all-girls team from MITWPU University, Pune, was declared the overall winner; and, the first runners-up is NMIMS, Mumbai team.

One of the NCC cadets at Lovely Professional University (LPU), Under Officer (UO) Roshan Kumar Mahto has brought laurels to LPU by winning gold medal at the toughest considered All India Thal Sainik Camp (AITSC) -2022. The 12-day camp was held at the Directorate General NCC Camp in Delhi Cantonment.

LPU's UO Roshan won Gold Medal in the Shooting (Application) competition.

ENGG VERTO RECEIVE RS 50 LAKH FROM CM

Andhra Pradesh Chief Minister YS Jagan Mohan Reddy pulsed the potential of the LPU student to become an antronaut

BTech ECE (Hons.) 3rd year student Jahnavi Dangeti of the School of Electrical & Electronics Engineering (SEEE) at LPU is on the verge of becoming an astronaut. Very passionate about her space journey as an acclaimed astronaut, LPU student had also joined and completed NASA's educational International Air and Space Program (IASP) successfully. She is the first Indian student to join IASP. Hailing from Palakole in West Godavari district of Andhra Pradesh, Jahnavi joined LPU engineering programme to

realize her dream of becoming an astronaut. Following her passion, she got a coveted chance at LPU to represent India in IASP at NASA's Launch Operations' Kennedy Space Centre.

Pulsing LPU student's potential to become an astronaut, and considering relevant appeal by her for further training, Hon'ble Chief Minister of Andhra Pradesh YS Jagan Mohan Reddy sanctioned Rs. 50 Lakh. In this regard, Minister for Information and Public Relations, Ch Srinivasa Venugopalakrishna handed over the related cheque to Jahnavi.

NCC cadet won Gold Medal at "Thal Sainik" Camp

The camp was held at the NCC Camp in Delhi Cantonment

LPU Pro Chancellor Mrs Rashmi Mittal congratulated the brilliant students on getting national accolades. Mrs Mittal shares that NCC gives the youth of the country an exposure to a life full of adventure, discipline and honour.

At the final camp in New Delhi, LPU students took part in competitions like "Obstacle Event of PHHP&C (Punjab, Haryana, Himachal Pradesh & Chandigarh) Directorate.

Along with him, another LPU NCC Cadet UO Anurag Kapadia also uniquely participated in the "Obstacle Event of PHHP&C (Punjab, Haryana, Himachal Pradesh & Chandigarh) Directorate.

12 LPU RESEARCHERS FIGURE AMONG WORLD'S TOP 2% OF THE SCIENTISTS

Dr. Ravinder Kumar

Dr. Chander Prakash

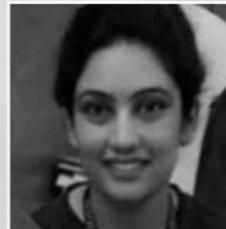

Dr. Vijay Mishra

Dr. Pranav Kumar Prabhakar

Dr. Munish Bhatia

Dr. Dhriti Kapoor

Dr. Devesh Tiwari

Dr. Gursharan Singh

Dr. Ravinder Jilte

Dr. Akhil Gupta

Dr. Sachin Kumar Singh

Dr. Saurabh Satija

Prestigious Stanford University of the United States has graded 12 scientists of LPU amongst the top two per cent of scientists worldwide. Stanford University's research database has figured LPU's scientists from 8 diverse domains. The scientists are ranked

on the basis of certain key indices, including publications and citations. Out of this, 5 of them were also a part of the top scientists in the previous year also.

Globally recognized 12 LPU Scientists are from the eight domains. Included in this coveted global list from LPU

are Dr Munish Bhatia for research endeavours in the field of Artificial Intelligence & Image Processing; Dr Dhriti Kapoor for Plant Biology & Botany; Dr Ravinder Kumar and Dr Ravinder Jilte for Mechanical Engineering & Transports; Dr Chander Parkash for Materials; Dr Gursharan

Singh for Biotechnology; Dr Akhil Gupta for Networking & Telecommunications ; Dr Pranav Kumar Prabhakar and Dr Devesh Tiwari for Medicinal & Biomolecular Chemistry; Dr Vijay Mishra, Dr Sachin Kumar Singh, and Dr Saurabh Satija for their individual works in Pharmacology & Pharmacy.

Verto Jaismine Lamboria is the first ever female boxer to join Indian Army

Jaismine Lamboria

Jaismine Lamboria is a name known to each one of us due to her humongous achievement of winning a Bronze medal in the Commonwealth Games in Birmingham 2022 in the 60 kg weight category female. She also performed incredibly in the World Boxing Championships before the instalment of the Commonwealth Games.

Recently, LPU student Jaismine Lamboria became the first female boxer to become a part of the Indian Army. Twenty-year-old

LPU supported us a lot. Here, the coaches train us very well

Jasmine has been recruited as a Recruit Havildar in the Corps of Military Police. The Indian Army are already privileged by male boxers like Manish Kaushik, Amit Panghal, and Mohammad Hussamuddin.

Jaismine thanks LPU and her coach Leela Dhar for supporting her and providing

the best of facilities. "LPU supported us a lot. Here, the coaches train us very well and the training facility is amazing too. I have received scholarships too, and I train here free off cost," she adds.

Talking to the reporters, her uncle Sandeep and her coach said, "We are all happy and ecstatic with this news. This is a big honor that Jaismine will be joining the Indian Army. The fact that she is the first-ever female boxer to do so, our happiness and pride are magnified now."

Record-breaking placement with **MOTORQ**

Abhisika Agarwal
B.Tech. CSE

Placed at a grand package of
₹50 Lacs

LPU Verto placed at Motorq at a package of INR 50 lakhs!

Placements at LPU continue to improve. Abhisika Agarwal, a student at LPU studying computer science engineering, has served as a shining example of achievement by securing a placement with Motorq at a salary of INR 50 lakhs rupees.

Abhisika Agarwal is an ambitious student pursuing a B.Tech Computer Science Engineering. She possesses exceptional leadership and communication skills. She has worked with a wide variety of organisations and has held the position of campus ambassador for several well-known student organizations, including

Coding Blocks, Newton School and FamPay. In addition, she has also worked as a student partner for Internshala and as a developer for the Microsoft Technical Community at LPU. She is a competitive programmer with remarkable problem-solving skills and has won a number of coding challenges and contests.

In addition, she has contributed to open source, and she was chosen to participate in Hacktoberfest. She has a strong fascination with machine learning and robotic process automation.

Glam & gorgeous at Karwa Chauth 2022

LPU staff members celebrate the day wearing traditional wearing gorgeous outfits, glowing makeup, matching jewellery, and deck up their hands with mehndi designs

MBA CHAI WALA INSPIRES VERTOS

Prafull Billore, founder of MBA Chai Wala, visited Lovely Professional University (LPU) and inspired the students to make something big out of their life. The session called as "Kadak Chai" was organized by Wissen organization under the aegis of Student Welfare Wing, LPU. It was one of the most relevant and interactive speakers' session with one of the most inspirational entrepreneur in India.

The session started with

"3-4 years is the average time to know if you are doing the right thing in life"

Mr. Prafull Billore reminiscing his journey and the challenges in his entrepreneurial journey. He had a business mindset from early days. He has been aware of the financial conditions and was mature enough to help out his family and learn a lot of things in the journey.

One of the most important things that can stop you from reaching your goals is the input you put in the form of time and efforts. Mr Prafull Billore marks 3-4 years as an average time to know if you are doing the right thing. By quoting scriptures, he mentioned that there is no way you can get away from working throughout the day. There is a lot of fear related to work and discomfort. He said the attitude and ego should be kept aside while marketing yourself or interacting with anyone in life.

By Manan Aggarwal

"Grow healthy and adopt the concept of nationality", Abhishek Singh to LPU

An Indian Administrative Services (IAS) officer, a social entrepreneur, and an actor too, Abhishek Singh visited LPU where he stimulated students to follow their individual passion for success in life. While interacting with thousands of students at Shanti Devi Mittal Auditorium of the university, he shared about his proactive life and motivated them on positivism. Entering the campus, he appreciated it for its vibrancy and uniqueness.

As an IAS officer, Abhishek always liked to be called a rebel. He left the administrative services to pursue his passion for acting. He shot to fame after featuring in

Mr Abhishek left the administrative services to pursue his passion for acting

several hit music videos by leading musicians such as Badshah, Jubin Nautiyal and B Praak. His "tough and lovely guy" look also impressed the audience and his music videos always garnered a lot of views.

Lord Dr Diljit Singh Rana applauds LPU's educational endeavours

British politician and Member of the House of Lords, Lord Diljit Singh Rana MBE paid a special visit to LPU, where he interacted with LPU students of

diverse streams. The occasion was a 'Youth Talk' show, specially organized at Shanti Devi Mittal Auditorium for thousands of new students to commence their academic journey

on high notes.

"I am really glad to visit LPU Campus again. Since my last visit about 10 years ago, LPU campus has expanded with a lot more people and great infrastructure. I am very happy to see it," Lord said.

Highlighting the importance of digital communication in today's era, and being an education propagator himself; he also expressed his desire to have involved and connected linkages with LPU. The Rt Hon'ble Lord Dr Diljit Singh Rana is Member House of Lords, Westminster Upper House of Parliament, London, since 2004.

Chief Information Commissioner addressed Law students of LPU

The Chief Information Commissioner (CIC) of Punjab State, Hon'ble Khushwant Singh addressed Law students at Lovely Professional University (LPU). This occasion was the three-day conduction of 'Right to Information Act' awareness programme on the inception day of the act in 2005. He also released a summarized seven chaptered RTI Act booklet to let all understand the core of this most democratic 'Act' in brief.

LPU School of Law had organized the programme, in collaboration with the State Information Commission, Punjab, at the Shanti Devi Mittal Auditorium of the University. The invited guest, an established authority on the topic, invoked Law students to always stand public spirited and help needy people through RTI Act. He also implored them to read this act thoroughly; understand it properly in practical form; use it for community; and, make the public feel happy and satisfied as per their queries.

WHAT IS THE IMPORTANCE OF STUDYING PURE SCIENCES

All the major technological revolutions are brought primarily by the invention of new materials. Be it the evolution of a computer made up of 5000 vacuum tubes weighing two tons to a palmtop, or the usage of nanoparticles to clean the environment.

Synthesizing materials is just one example of how beautifully the three sciences (physics, chemistry & mathematics) blend to solve major problems of society. From those glasses that make a spacecraft window to many nanofabricated substances, everything is possible

Handling a position of CR helps you learn things throughout your tenure

because of the scientists that fail 99 times. Here are some reasons and facts about pure sciences that prove that "The Boring Sciences Theory" is false, and why you should consider studying these subjects after your high school.

Industries Need You
Almost all the industries have a Research & Development division

that makes sure that their company is using its resources efficiently, and their products serve their purposes. Making continuous improvements in the manufacturing process is essential for the industries and for that, they need people from science background.

International Exposure
While doing research in pure sciences at any level (Undergraduate, Postgraduate or PhD), there are numerous opportunities available at world class universities abroad. If you are doing quality research and wish to pursue it in

a foreign country with funding, then all you need to do is to find a researcher there who is working on the same project.

Making the life of Engineers Easy

Biomedical engineers need materials that can be inserted inside the human body, civil engineers need lighter and eco-friendly materials for the buildings, automobile engineers need composites to make the automobiles light and cost-efficient. Engineering is working artfully and creating something for the community.

VERTO DILIP RECEIVES BEST DEFENDER AWARD AT KHO KHO LEAGUE

Dilip Khandavi, a student of Lovely Professional University, has made us all proud by winning the Best Defender Award in the Ultimate Kho Kho League on this National Sports Day. Dilip originally hails from Odisha and is also known as the "pocket dynamo of the Odisha Juggernauts". For his outstanding performance in the match, he was given the Defender of the Match award.

The Ultimate Kho Kho league is a competition wherein the home-grown sport of the nation Kho Kho is brought to the foreground. The Kho Kho Federation of India has helped to launch the competition. With this competition, young talent will have the chance to showcase their abilities in front of a large audience.

STUDENT COUNCIL ELECTIONS AT LPU

Lovely Professional University, located in the heart of the most diverse country in the world, has thousands of students having diverse expectations, stories and plans. The students are constantly motivated and guided by the faculties, their daily life needs are being taken care of by the residential officers, and their

mental health is the first priority of the happiness department.

Along with the care that the university officially provides, students need someone to approach if they have some suggestions for the betterment of the system or they have a particular requirement in any field. The students need someone "one of them" & "like them" to

"represent them".

A selfless and empathetic leader who believes in inclusion, a dedicated team to help the leader and the students to achieve their goals, and proper coordination between different bodies are the vital ingredients for smooth functioning of any university.

Choosing "One Voice" for the entire university may

sound challenging to most of us, but LPU has been accomplishing this task smoothly. The students of the university voted for their representatives on 3rd October 2022 in online and offline mode.

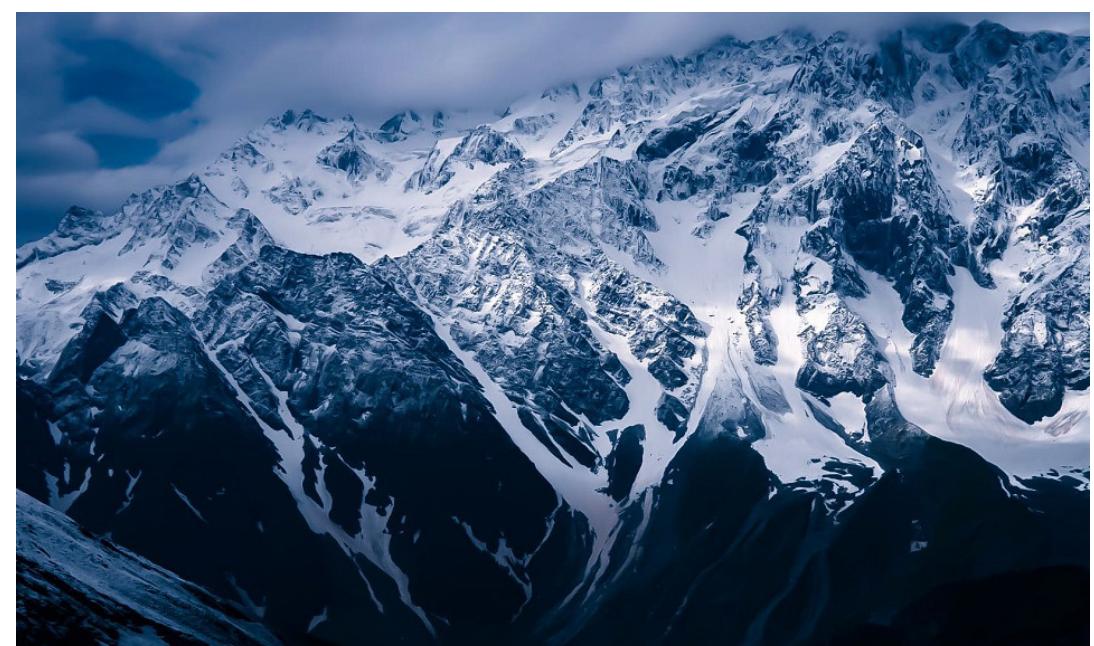

The student council has many roles and responsibilities. It's their duty to help the students to know more about the university

and solve their queries about anything related to academics or extracurriculars. It acts as a guide for activities or facilities that the university provides, which helps them to discover the best version of themselves.

The council is the symbol of unity among the students of LPU, dedicated to contributing their part for the benefit of the students.

LPU-NSS: Always ready to help the deprived

Photos clicked by Verto selected by BBC Earth

Cadets from LPU-NSS have always been excellent role models for others by demonstrating a never-ending enthusiasm for serving both the local community and the nation as a whole. In line with this passion, on the 53rd National Service Day, members of the LPU-NSS went to slum areas in and around Jalandhar to feed the poor, give out books, pencils, and other necessities, and spend time with children who haven't had the basic things they need.

There are numerous justifications for donating food. It has the potential to alleviate suffering during times of natural disaster, feed the poor, and cut down on the amount of food that is wasted. When you donate food, you are contributing to the cause by ensuring that the food will be consumed rather than wasted.

Providing the people who live in slum areas with access to literature is one of the most essential things that we as students can do to assist the people who live in these places. This can be accomplished by giving copies of books to each of the inhabitants. Giving books to people who live in slums has many positive effects on their lives.

In celebration of World Photographic Day, Sony BBC Earth has launched its "Earth in Focus" photography competition. "Earth In Focus" is open to everyone with a camera and is a platform for photographers of all skill levels and interests. Sony BBC Earth believes that all you need is a sharp eye, some passion, and some patience to be able to capture a beautiful moment in time. Winners of the photography contest will get prizes for how good they are at taking pictures and how much they love capturing fleeting moments.

It was great to hear that the photographs taken by

"Earth In Focus" is open to everyone and is a platform for photographers of all skill levels and interests

through daring experiences, others by seeing the more primal side of the world, while yet others look for it in the simple splendour of nature. "Thrill of Life" is this year's competition's overarching subject, and within that, there are further subcategories for landscape, adventure, and wildlife photography.

The winner of the competition will not only receive a GoPro Hero 10, but they will also have the once-in-a-lifetime opportunity to have their entries broadcast on the Sony BBC Earth channel as well as on their social media accounts.
