## GREETINGS TO ALL OF YOU!

Blessed with a vision and an untrammeled thirst to nurture the society, the great philanthropists of Shri Vile Parle Kelvani Mandal founded Narsee Monjee College of Commerce & Economics in 1964.

One of the premier and oldest colleges in the region, the institution has catalyzed the scenario of education since then by imparting quality education. Apart from the staple and mainstream courses in Commerce, the institution offers various job oriented courses like B. Com Hons , B.Sc. IT and a bouquet of certificate programmes like Content Marketing to give learners an edge over others in the job market by chiseling their communication, technical and other soft skills.

Narsee Monjee College has always had a reputation of being the most sought after college globally. My staunch faith and conviction is that our students would carve a niche in their career and life by going in lineage and heritage through this temple of learning.

I am glad that the various co-curricular activities that NM provides will sharpen your personality, managerial and interpersonal skills. I am also particularly glad that you students are also encouraged to engage in social out- reach activities especially like NSS Camp in rural areas which will sensitize you to realities of lives of different sections of the society in our country.

All this has been possible only due to the dedication and commitment of the Teaching Faculty guided at every level by an enthusiastic Principal and all the support staff of the college. I wish you all the best for achieving greater success and scaling new heights in your education and career ahead.

With its newly adorned crown of **Autonomous** status, I am sure that NM College will leave no stone unturned to build a vibrant and inclusive learning community in a culture of excellence sustained by a sound value system that promotes responsible citizenship and effects social change.

My good and warm wishes to all the new entrants to our NM PARIVAR.

Shri. Amrish .R. Patel  
(President,SVKM)

## FROM THE PRINCIPAL'S DESK

"A vision is not just a picture of what could be; instead, it is an appeal to our better selves and a call to become something more"

Dear Students and Stakeholders,

Warm Greetings! It is with a profound sense of humility and privilege that I address this message as the Principal of this prestigious institute. This great edifice of education, popularly called NM College, had its inception in the year 1964 and soon many glorious accomplishments came its way, and today, it is the most sought-after college nationally offering 6 undergraduate programs, 3 postgraduate programs and 2 Ph.D centres.

India Today survey has ranked NM College as Rank 1 in best value for money amongst the best commerce college, Rank 1 in West Zone as the best college, Rank 1 in Best Commerce college in Mumbai. It has also ranked NM College as Rank No. 5 for best Placement Record and All India Rank No. 9 as the best commerce college.

The academic year 2020-21 has been a very special year as the College took its first step in implementing autonomy amidst the unprecedented pandemic. Despite the challenges, we at NM are mindful of constantly making every effort to reach out to the teaching-learning needs of the students and equipping our students with 21st century skills of critical thinking, creativity, communication, and collaboration.

NM's mission has always been to provide an overall educational experience, in both academics and character development and creating life-long learners in a learner-centered environment. NM made the best of the situation despite this pandemic situation being an extremely challenging year with the unstinted support of Management that provided the best of virtual learning resource, Microsoft Teams application. Fortunately, our students were all equipped with a personal laptop or android mobiles so we could ensure continuity of learning and evaluation through home based learning.

Whether our students chose to be a part of award-winning academic or curricular or co-curricular competitions,

or join one of our acclaimed certificate programs despite the pandemic situation NM offered opportunities virtually, through its Centres of Excellence and an array of Certificate courses in the field of Commerce, Marketing and Information Technology,

Academia Industry linkage was further strengthened through signing an MOU with Bombay Industry Association (BIA) having 1200 companies under its umbrella to provide internships to our students. All of the above courses ensure that our students imbibe a genuine understanding of the real world and its bounty that sustains all economic activities universally.

The institution thus trains the students to rise from being "Dependent" to becoming "Dependable" and the rich alumni in diverse fields like Chartered Accountancy, Administration, Politics, Entertainment and Sports are ample testimony to this. The corporate and industry interactions where our alumni are actively involved, not only provide hands-on experience but also help in placement of our students.

The Placement Committee's proactive involvement has enabled our students to get placed with the highest pay packages ever in 2021. We are fortunate to be backed by a team of highly talented, dedicated and committed faculty members. With a very amiable and professional environment, our faculty members make substantial contributions to the academia through quality teaching, curriculum design, research and publications.

As a student, you can definitely expect to have an enriching experience that should propel you to make the best of the opportunities available, for NM college is guided by the conviction that-

**'Intelligence is not a privilege but a gift to be used for the good of Humanity.'**

The college library is regarded as a favourite place for self-study by the students as well as faculties. However, this year due to the pandemic there was strict limitation on entry in the college premises, the library had given emphasis on digital library, online databases and reaching faculties and students through online mode.

### Library Modernization:

A new barcode printer was added in the library replacing the old one. Division wise Google groups for all courses were used for regularly sending various academic instructions and notices and information about library resources. The Google Groups were also used to provide library services online such as sending interactive library newsletter, instructions for using online databases, etc.

The individual ID and password were provided to all staff and students for free and seamless remote access to online databases. The online databases with e-books and e-journals received 1,08,915 hits during May 2020 to April 2021. The library has institutional membership NList consortia of INFLIBNET by UGC providing access to numerous e-journals and e-books, and Online resources of Taxmann Publication which regularly provides information on business laws, accountancy and taxation. The SVKM has provided 37 databases on e-books, e-journals, companies, law, statistical information of India, case study, research, marketing, etc. Remote access to these databases is provided through the college website on the library webpage, from where the staff and students can access them easily using their individual IDs and passwords.

The Information Repository containing subject bibliographies, library newsletters archives and question papers of all classes was regularly updated on the library webpage on the college website. The Other Online Resources portal in the digital library on the college website also provides links to various online resources useful for staff and students for their assignments, competitions and competitive exams.

The library was constantly in contact with faculties, staff and students during the whole year through

Google Groups, Institutionalised Outlook Email, MS-Team and WhatsApp. The library has spared no efforts to get the soft copies of books, case studies, newspapers and journal articles required by faculties and students, as per their demands from time to time.

#### **Library Newsletter:**

The library newsletter was regularly published every month and circulated via emails through Google Groups to all students and through Outlook emails to all faculties and staff members. It is also published online on the college website and the archives are made available in the Information Repository. The newsletter includes cover pages of new books arrived in the library, details of the services provided to students, details about different databases, students flair the articles and poems written by students, feedbacks, etc. This year the newsletter also published Lib-Guides every month. The Lib-Guides are the articles giving details about various important online information resources along with the clickable links on different topics, e.g. Climate Change and Global Warming, Economics, Import/Export Studies, Entrepreneurship, Business Law, Online Resources for Writers and Researchers, Statistics, Artificial Intelligence, Language learning, Trends in 2020 and 2021.

#### **Services to Ex-students:**

During this academic year the certified copies of syllabus were issued to 5 students for their further studies.

#### **Library Committee:**

The library committee had taken initiatives to suggest books for the library and asking faculties to suggest for library books and periodicals procurement. Vachan Prerna Diwas with teaching and non-teaching staff is also celebrated online with MS-Team app.

The Library Committee took initiative to encourage the Friends of Library Students to be active in reading, writing and research activities throughout the year.

#### **Vachan Prerna Diwas:**

Friends of Library Committee had celebrated Vachan Prerna Diwas by publishing an eight pages pamphlet on book reviews of the books and an online book stand of soft copies of books authored by Dr. Abdul Kalam.

Amidst the ongoing pandemic, Umang with a resilient spirit and a workforce of 100 students was charged and prepared to soar to new heights like never before. Umang believed in '**Conquering Obstacles and Creating Opportunities**' and with utmost faith and passion set out to conduct the entire cultural festival along with all its events virtually. Thus, aptly naming the theme this year: 'A Digital Paradigm'.

In the history of Umang, this was the first time the entire experience would be completely digital. Umang was held from 1st - 4th November and brought in memories to last a lifetime and filled our hearts with excitement. From the events to the workshops, from speaker sessions to ProNites, the fest had a trunkload of learning and experience in store for everyone. There were 35 cultural events organized, where more than 90 colleges participated which was only made possible by the team effort of all the departments.

Nonetheless, the team of Umang did not let the online aspect of the festival hinder the exuberance and experience that the festival had to offer.

## PRE ON DAYS:

### Umang Pre Festival X ATKT

Umang along with ATKT put forward events spread over a timeline of 2 days, each more exciting than the previous. There were 5 events in the fields of Drama, Dance, Music, and Poetry. This all was made possible with PAYTM Insider's platform on which the events were held virtually. With 1450 tickets booked and 2260 viewers across 5 events, they proved to be a huge success. Reaching for Moo-re, Umang received over 700 entries for pre-elimination from all over the country. ATKT Campus League introduced an engaging concept of 'audience voting' which made these events a quintessential college festival starter-pack and has undoubtedly excited everyone for all the upcoming events in general and Umang 2020 in particular.

### Social Cause Wing - Parvaah

Umang believed in impacting through action and conducted 8 social causes in 2020. These social causes ranged from personal hygiene to a massive food donation drive. Umang partnered with the Lions Club of Juhu and Aapka Sahara Foundation this year. With the Lions Club of Juhu, We distributed 1600kgs of food grains that impacted close to 100 families, installed 3 water purifiers in Dreamz home centres and also conducted an insightful personal hygiene session with Dr. Rakhee Vakil for the girls of Amcha Ghar followed by donation of personal hygiene kits which included masks, sanitary napkins and pads, combs, soaps and other basic necessities.

Umang in collaboration with Aapka Sahara Foundation conducted a sound therapy, Dance Therapy and Art therapy sessions with Rescue Foundation and Amcha Ghar over zoom. On the occasion of World Mental Health Day, Umang had the pleasure of having Miss Amanpreet Nagpal who briefed 100 students on how to harness the power within us.

### Series Promotions & Celebrity Interactions:

For the first time in the history of Umang, we had a Series Promotion with Pankaj Tripathi and Ali Fazal - the cast of 'Mirzapur 2' over Zoom which turned out to be an entertaining interaction with the workforce. To lighten up the spirits and free up the hectic minds, Umang's workforce had the pleasure of interacting with the very famous and well known T.V. actors Dilip Joshi, Mandar Chandwadkar and Tanuj Mahashabde famously recognised as Jethalal, Bhide and Iyer from Taarak Mehta Ka Ooltah Chashmah on the 29th of October, 2020.

**ON DAYS****1st November 2020**

Exploring uncharted territories, Umang 2020 began on a spectacular note. With the entire festival being held online, several new avenues were discovered. With the aspirations of many in tow, the festival also held several surprises.

Events such as Management Maestro, Play Pause, Loudspeaker, It's My Write, Strings Attached and an insightful screenwriting workshop were a delight for 800 students. The first day was brought to a perfect end with Ankit Tiwari's melodious voice that mused more than 500 viewers on Instagram live.

**2nd November 2020**

The second day brought along more excitement and vigour. Covershot, Fusion music, campaign connect, the Bollywood dance workshop and other events certainly entertained and engaged everyone. Umang invited more than 500 participants to these events from all over India and gave them a platform to showcase their talents. Once again, the day came to a close with the soulful voice of an artist. Adding magic to an already exciting day, Asees Kaur graced the second pronite with her presence that attracted more than 1500 viewers on MS Teams.

**3rd November 2020**

Setting the stage, the third day began with Blend it up and The Poster Affect, two unique art and photography-based events. The rest of the line-up included events such as Fusion Confusion and Sufi Singing which were undoubtedly crowd favourites along with a convention and engage 101 workshop (by Trendelite) which attracted more than 2000 viewers on Youtube.

We had the very famous celebrities from Dice Media, Ayush Mehra and Barkha Singh to promote their Series "Please Find Attached" season 2. The Marina Bo live virtual EDM concert with Sunburn campus was the third and final ProNite that was witnessed by 2000 people. The visuals and the virtual feel was unparalleled and was a definite success.

# ARTH MÓS

**Report:**

**Dates: 20th January, 2021 to 23rd January, 2021**

Arithmós : A Cognitive Expedition - the annual intercollegiate Mathematics and Statistics Festival of N.M. College, was conceived with the objective of removing the humdrum blocks existing in the mindset of students by approaching mathematics and statistics in its purest form- in the real world by focusing on their practical aspects in day-to-day life.

Arithmós aims to bridge the gap between mathematics as a subject and mathematics as a way of life. By combining hidden mathematical concepts with everyday life, Arithmós is more than just a mathematics fest. It is a coming together of aptitude, reasoning, logic, management and strategy. Being in the second year of its existence in 2020-21 team Arithmós put together a stellar performance by organizing a highly successful pan-India festival and setting high standards for the future.

1605 participants, 94 colleges, 10 events, 5 workshops, 4 days!

Arithmós 2020-21 was conducted on online platforms and consisted of events which tested the cognitive and analytical skills of participants. We organized a wide array of events ranging from themes like election strategy, treasure hunt, code-breaking, supply chain management, board game strategy, sports strategy, neuromarketing, etc. All these events brought the competitive spirit of the participants to the fore and got them engaged with a wide spectrum of rounds which put to test skills like logical and analytical rigour, on-the-spot thinking, quantitative aptitude, presentation skills, out of the box thinking, decision making, spontaneity and general strategy.

Along with planning and executing quality events, we at Arithmós firmly believe in the continuous development and enhancement of the human mind in diverse skillsets and rapidly growing market trends. In line with this belief, we also organized 5 highly insightful workshops covering a myriad of modern world topics which opened the doors of innovation and provided an impetus to the knowledge, awareness and skillsets of the attendees.

Delivered by an elite panel of presenters, the workshops focused on topics like election strategy, design thinking, murder mysteries, blockchain technology and neuromarketing. On the whole, Arithmós 2020-21 can be rightly dubbed as a perfect combination of quality events, insightful workshops and efficient execution. It was a pleasure on the part of the entire team to bring to you this successful festival.

- To inculcate research culture in students.
- Sometimes, even a very fluent, well-written article doesn't land a publisher. Through Research Park, we provide this opportunity to the students.
- To throw out the stigma of research being boring and only for work.

### Opening Ceremony:

On 24th November, starting at 4:00 pm, honourable Principal sir addressed the team in the Opening Ceremony, speaking a few words. He inspired us with his knowledge and compassion. Later, the teachers supported the festival with full zeal and enthusiasm. It marked the formal opening of the Research Committee, which would go on to avoid events throughout the year.

### Research Paper Writing Workshop:

- The Research Paper Writing Workshop was conducted on 22nd January, 2021.
- The purpose of conducting this workshop was to create awareness among people regarding its importance and also teach them the nuances of writing a research paper.
- The event started with introducing Dr. Vinita Pimpale, a doctor of philosophy, who then proceeded further by explaining the weightage a research paper carries.

This was later followed by her teaching the attendees the process of writing a research paper, right from scratch. Thereafter, the session was concluded with some final insights into research paper writing.

#### **Primary Data Collection Workshop:**

- On the day of February 20th, NM college had Dr. Meena Vazirani conduct an informative session on Primary Data Collection.
- She started the session with the basic definition so the students have the base to build up on. She further went on to describe the various information they have to sift through and decide the best material for data collection. She then marvellously explained various other topics like the purpose and methods of data collection, characteristics of a good questionnaire and requirements of a questionnaire.

She proceeded to make this all fun for the students by conducting a small exercise to make them understand data collection better. After an insightful discussion, the floor was open for questions from the participants, after discussing and giving a very in-depth answer to every question, the session was called to end.

#### **Research Park Festival:**

The event started with the team gathering the Principal's blessings. Sir spoke some really wonderful, insightful, and encouraging words that boosted the team and the participants.

Principal sir spoke about the importance of research in today's intellectual and technology-led world. He gave the go-ahead or the green light to begin the celebration of research.

The participants had already been trained in the nitty-gritty of research paper writing by the Research Committee. We had conducted several relevant workshops about deciding the research topic, the importance of research for a strong CV, where to collect the relevant data from for the paper, and basically how to go about writing it.

Each participant was being mentored by a teacher for some time now, to help them brush up on their skills and present the perfect paper. This ensured that there were negligible mistakes in the data and the writing.

Then, one by one, the participants presented their papers in front of everyone and received appreciation.

#### **Learnings:**

- The team and the participants listened to and learned loads of information about a realm of topics that were chosen like finance, technology, humanity, and education.
- We learnt the importance of knowledge. These days, people go so much after practical skills and experience that they are forgetting the importance of the theory behind it.
- The participants climbed one step up in the ladder of their career by successfully writing, presenting, and getting their research paper published.

### **Project Marigold**

“Marigolds for our women with a heart of gold”

Marigolds are said to be the best flowers to grow around other plants in a garden, because they're the ones that help the plants around you to grow faster, and stronger.

When the team sat down to decide the name that justifies our project, it had to be this.

Project Marigold, aims to contribute towards sustainability and women empowerment together. With marigold and basil being the main ingredients, our group of women in association with Trishul NGO will manufacture seed paper that will be sold, with all proceeds being given directly to these women. Now, you can not only admire a good marigold and sniff the fresh basil leaf aroma, you can make seed paper out of it.

What do we get out of it?  
We get to be a marigold in someone else's life.

### ગુજરાતી સાહિત્ય મંડળ વિશે:

અમારું સૂત્ર છે- ‘ગર્વથી ગુજરાતી’. આ સમિતિ ગુજરાતી સમુદાયના વિદ્યાર્થીઓમાં રહેલી આંતરિક પ્રતિભા, કૌશલ્ય અને કળા ને ખીલવીને તેને વધારવાના પ્રયત્નો કરી રહી છે. ગુજરાતી સાહિત્ય મંડળનો એક ઉદ્દેશ એ છે કે ગુજરાતી સાહિત્યનું જ્ઞાન ખૂબ જ અનોખી અને મનોરંજક રીતે પ્રદાન કરે. અમારી દરેક પ્રવૃત્તિઓ આ ધ્યેય પર આધારિત હોય છે. અમે ઘણાં જુદાજુદા અને રસપ્રદ કાર્યક્રમોનું આયોજન કર્યું છે અને અમે ભવિષ્યમાં પણ આવી પ્રવૃત્તિઓનું આયોજન કરતા રહીશું.

### ૧) રોશનીર૦૨૦: ૬/૧૧/૨૦૨૦ થી ૨૪ /૧૧/૨૦૨૦

અમારો પહેલો કાર્યક્રમ દિવાળી તહેવાર પર આધારિત હતો. હેતુ વિદ્યાર્થીઓમાં રહેલી આવડતને ઓળખ આપવાનો હતો. કુલ ૪૧ વિદ્યાર્થીઓ સહભાગી થયા હતા. કાર્યક્રમમાં વિવિધ સ્પર્ધાઓ શામેલ હતી.

પહેલા રાઉન્ડમાં કોલેજના શિક્ષકો દ્વારા, કુલ એન્ટ્રીસમાંથી ૨ એન્ટ્રી-પ્રતિસ્પદ્ધાની પસંદગી કરવામાં આવી હતી જે nm\_gsmના ઈન્સ્ટાગ્રામ પર મુકવામાં આવી હતી. મહત્તમ પસંદના આધારે વિજેતા જાહેર કરવામાં આવ્યા હતા. અમારા પ્રાયોજનીકો તરફથી મળેલા સહયોગને કારણે ઈનામ વિતરણ શક્ય બન્યું હતું.

### ૨) સાહિત્ય સરિતા: ૧૫/૦૨/૨૦૨૧ થી ૭/૦૪/૨૦૨૧

અમને આ જાહેર કરતા આનંદ થાય છે કે અમે ૨૦૨૧ના મે મહિનમાં આંતરમહાવિદ્યાલય ગુજરાતી સામયિક – ‘સાહિત્ય સરિતા’ પ્રકાશિત કરવાના છીએ. આ પગલું ભરવા પાછળના બે મુખ્ય કારણો છે: પ્રથમ, વિદ્યાર્થી લેખકોને તેમની સાહિત્યિક કુશળતા માટે એક મંચ આપવું. અને બીજું, આપણી સંસ્કૃતિ અને સાહિત્યનાં મૂળ સાથે સતત જોડાયેલા રહે એ માટે એક શ્રેષ્ઠ માધ્યમ પ્રદાન કરવું.

૧૫/૦૨/૨૦૨૧ થી ૩૧/૦૩/૨૦૨૧ દરમ્યાન ફૂતિઓ સ્વીકારવામાં આવી હતી. કુલ ૩૭ ફૂતિઓ મહારાષ્ટ્ર અને ગુજરાતના વિવિધ મહાવિદ્યાલયોમાંથી મોકલવામાં આવી હતી. કોલેજના પ્રોફેસર જીમીત મલ દ્વારા પસંદ કરેલી ફૂતિઓ સામયિકમાં પ્રસ્તુત કરવામાં આવવાની છે. મહત્તમ ફૂતિઓ મોકલનાર મહાવિદ્યાલયોને આ સામયિક નરસી મોનજી કોલેજ દ્વારા બેટ સ્વરૂપે આપવામાં આવશે.

**Details:**

Everything being virtual this year, the main motive of the social media handles was to be as inclusive and informative as possible for the students to stay up to date with the events and activities happening around college, outside the classroom. The page was kickstarted through invitation posts of Milaap, 2020 followed by event posts of other committees.

The templates for the posts were designed to segregate events into three categories:

1. Pre-Event Template
2. Post-Event Template
3. Achievement/Announcement Template

This segregation helped in better dissemination of information to the students along with maintaining strong aesthetics of the page to boost engagement.

- All the information about the events of various college committees was posted accurately and timely to ensure the above with an equal display of achievements done by the college students in numerous spheres.
- An initiative of “Plan Your Week” was taken up to communicate all the events of an entire week in advance for better planning for the students and increase in participants for the committees.
- All the college committees were supported throughout the year via shoutouts, stories and posts to help them reach out to the college students.
- The official NM Blog domain was also created to initiate the set-up of the blog for future articles.
- Development of BBC e-Brochure for external communication with organizations for collaborations was also done.

**HUMANS OF NM:**

Humans of NM is an initiative of Brand Building Committee of NM college to provide platform to the students of NM for sharing their stories. At humans of NM, we try to capture the untold stories and we believe that every story has its own unique value and the world shall not miss on something if the story is not narrated.

This year we had an agenda to unfold stories piece by piece so that people don't bear to go unnoticed in the affair of evolution and existential crisis. We kickstarted this year by launching a teaser in which the students expressed their love for college and mentioned their excitement for reading the intriguing stories.

We posted 15 inspiring stories this year which included students from various fields and streams who shared their journey in NM. The stories covered their passion, adventure, challenges, memories, growth and many more interesting aspects.

We launched a campaign-Entrepreneurs at NM, in the month of January, which lasted for one month. It covered 7 stories of young entrepreneurs at NM who shared deep insights about their start up and inspired the students.

## MATHEMATICS AND STATISTICS CELL OF NM COLLEGE (MSCNM)

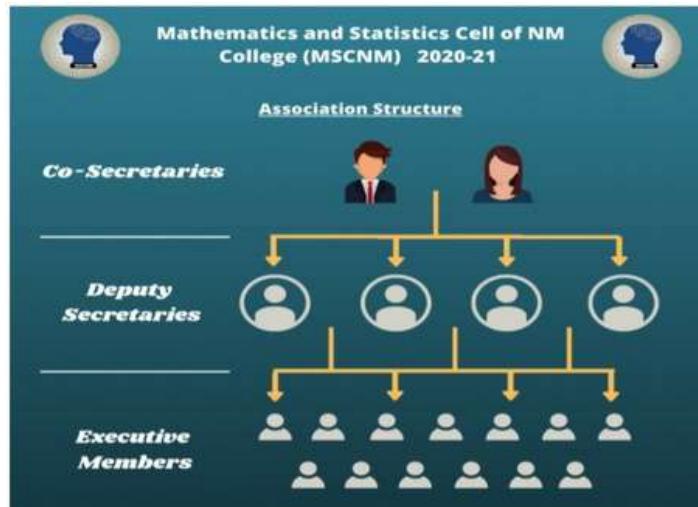

**MSCNM** was brought into existence last year with great excitement and an aim of developing interest in students for math and stats by presenting it in a fun and easy to understand way by virtue of games, quizzes, movies suggestions, jokes and much more.

Last year was amazing and this past one year has been bigger and better. The whole committee working online throughout the year hasn't been easy. But even in such difficult times, because of the wonderful team we possessed along with the guidance of teacher in charge Mr. Sunil Kadam, MSCNM has grown only upwards in all segments.

The two Co-Secretaries were selected in August by the top core of last year and Sunil Kadam Sir. Kaushal Parmar and Vidhi Shah (our co-secs) have been at the helm of everything happening in the committee throughout the year. They then selected our Deputy Secretaries for the department of Events, Marketing, Content Writing, PR, Digital Arts and Admin and Finance.

The committee in total had 2 secretaries, 6 dep secretaries and 19 members thus creating a family of 27 people with the same goal. The constant support received from our Principal- Dr. Parag Ajagaonkar and our teacher incharge- Sunil Kadam Sir was immense and we will be forever grateful.

### ASSOCIATION STRUCTURE/HIERARCHY-

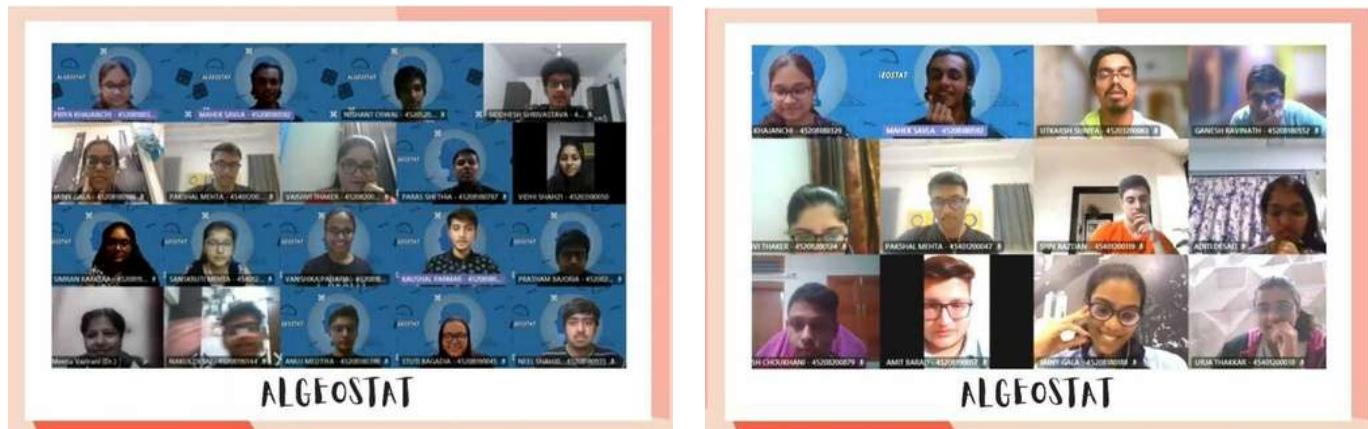

### Events

The events throughout the year were all extraordinary and unique in themselves. They were very well executed by the Events heads- Priya Khajanchi and Mahek Savla complimented by their team of 5 members and the co-secs.

**1. Algeostat-** This was our first event of the year and was very fun + technical. It took place on 19th Nov 2020. Algeostat basically means a combination of Algebra, Geometry and Statistics. It included a plethora of segments like memes, art, crossword, rapid fire round and pounce. We had 50+ participants and received amazing feedback from each one of them. The winners were given cash prizes worth Rs1000.

In the first round, participants had to solve the equations and derive the meme. In the second round, some instructions were given to make an object and they had to give its name. In the third round, the participants had to complete the mathematical crossword. The average of all rounds were taken and the top 10 were selected for the final which included rapid fire questions on Statistics.

## 2. Twist-A-Tambola

This was a super fun event which did not need great mathematical knowledge. It was the old school Tambola with a mathematical twist. Took place on 27th Dec, 2020 when everyone was in festive mode. This event was attended by people aged 10yrs to 65yrs and was thus very successful with 80+ participants.

### 3. Excel Like Never Before-

This was a session conducted by Mr. Jatan Shah who is a Microsoft Certified trainer and a dashboard and power BI expert. It was very informative and included a lot of things which we might not be aware of like Email Automation, Dynamic Charts, Name Manager, Importing live Stock Prices and more.

The event took place on 8th February, 2021. This event gained 450+ registrations for us and 120+ had attended the event. The reel made on Instagram garnered more than 7500 views. We also received many calls for future sponsorships of our events and want for more such seminars.

### 4. Filmy Bima

This is the Flagship Event of MSCNM where participants had to identify which movie will be a hit and which would be a flop and based on that calculate an insurance premium. The company which provides lowest insurance gets the contract and at the end, if the movie is a hit then it is a profit for the insurance company and if it's a flop then it's a loss. The magnitude of profit and loss is dependent on the premium quoted.

It took place on 27th March, 2021 and had 18 participants who gave an amazing response.

## **5. Mini-Events**

Other than our regular events, we had events taking place on our Instagram which included quizzes. 3 questions were asked every week. 7 such mini events took place and we got a total of 21 winners

## **Social Media**

The biggest progress from last year has been made by our content writing team. In total there have been 20 Blog posts. The link to our wordpress account is- <http://mscnm.home.blog> The team was very well managed by Vanshika Paharia, who was the head of the department. Her blog "Don't Rain on my Pitch" was one of the most liked blogs which explained the calculation of DLS method in cricket. Other major blogs included "Rare events happen all the time" by Ali Hyder Mulji which gave insights on the possibility of a rare event, "A Mathematical Ride" by Simran Kankera which explained to us how the working of roller coaster is based on math, "Crimatics" by Shreya Doshi which explains the use of math in solving crime and "Golf and Six Sigma Statistics" by Anuj Medtiya which explained the six sigma process with the help of golf.

There was a segment called Tuesday Tips on Instagram in which we helped students by providing tips on different mathematical concepts for eg- Shoelace method for multiplication of 2- & 3-digit numbers which was contributed by Khushboo Mehta.

Another segment was called as Cracking Sundays where we shared a joke on maths thus making for light-hearted weekends. Eg- Why do atheists have trouble with exponents? Ans- They don't believe in higher powers.

The next segment is Cinemath which used to go on our instagram stories. This used to give various movie/tv show suggestions which included usage of Math. Eg- A Beautiful Mind (2001) based on the life of John Nash.

The final initiative was It's a Numberful World which showed us how much influence maths has on our everyday life. Some examples include- Maths and Games, Music, Logos.

Vanshika also had made a Voiceover video in honor of Srinivas Ramanujan on his birthday which was applauded by one and all.

The threat of Covid-19 hangs over our heads like the sword of Damocles. Considering the situation around us, for the first time in history anything like this has happened. But this didn't stop our club from excelling and rocked it with its first online event. The Wildlife and Nature Club's (Jr.) event Clicks For Conservation - A Wildlife Photography Competition was held on 30th September, 2020 from 4:00 pm to 5:30 pm , on Microsoft Teams .

A glimpse of the event, Clicks for Conservation

The motto of this event was to spread awareness that wildlife and nature is something that is not to be encapsulated by cages but to be captured by camera, whose beauty can be mesmerized throughout. We had a great inflow of participants for the event. We were also graced by the presence of our Vice Principal and Teachers, who actively participated in our event. The participants showed their enthusiasm by actively participating and expressing their perspective towards nature and the photographs clicked by them.

The event served as a platform for participants to showcase their photography skills and express their way of seeing nature. All the participants had to send their clicks of wildlife and nature as their entries prior to the event and were to speak on their photograph, explaining the meaning and value it held, and what the photograph tried to communicate. The event initially began with screen sharing of the photographs clicked by the participants and then letting them describe their ideology of the photograph. There were two winners of the event who were exuberant in proving their expertise in photography and communications. The event was an overall success and the participants along with the audience had a lot of fun being a part of it.

### **PIXELS FROM THE WILD**

The Wildlife and Nature Club's (Jr). event, "Pixels from the Wild"- A Wildlife Photography Workshop, with our guest of honour Mr. Mayuresh Hendre was conducted on 22nd January from 5:00 p.m to 6:30 p.m. on Microsoft Teams. The concept behind this event was to help aspiring photographers to get some guidance from the best, Mr Mayuresh Hendre, who is an award-winning Naturalist and Wildlife Photographer and has been published by Sanctuary Asia, Nature in Focus, and Lonely Planet India on their digital and print platforms along with winning 2nd prize in a national level photography contest in 2019. He helped the participants open up the vast doors of knowledge to wildlife photography with his eloquent speaking.

#### **Poster of the event**

After the success of our first event we were ready to shine with our second event and it didn't set us back but lead to increase in participation. Mr. Mayuresh Hendre started the event by showing us two of his mesmerizing documentaries. The documentaries left us awestruck and we couldn't help but admire the beautiful nature at its best. Then he went on to demonstrate the basics of wildlife photography with a PowerPoint presentation he had graciously prepared. Later we had a fun interactive question and answer session in which many of our teachers interacted with him in the question and answer round. The event went on really smoothly and we were left with an emphatic feeling. The success of the event left a smile on our faces. In the end, the audience was left with one thought about how beauty lies in the eyes of the beholder and how one can show the true beauty of nature in its natural form. Each and every participant enjoyed this blend of fun yet educational workshop and had an overwhelming experience.

Saying that the coronavirus pandemic has been overwhelming is an understatement. It has taken an undeniable toll on everyone, most of all, the students. With the thought of bringing a smile to everyone's faces and a spark of fun in their life, the French Association kicked off a flurry of online events in the college for the academic year 2020-2021 with its first event on Bastille Day, 'La chasse française'. Literally, meaning 'The French Hunt', the event in essence was a scavenger hunt wherein participants were required to search for things one finds around the house. The hunt came down to a tie which was broken by a task where the competitors had to send a quirky selfie to the event coordinator.

In between the two events, the committee also carried out the recruitment drive for the incoming students. They received a staggering response, with almost 150 students applying. The applicants went through a rigorous and intensive screening process. Boiling down 150 students to ten final candidates was no small feat, but the committee members burned the midnight oil and did it nonetheless.

The first and only event that the outgoing team was able to organize with the new recruits was a quiz. 'La gastronomie française' was a brain-racking quiz on the knowledge of the inexhaustible French cuisine. Famed for its haute cuisine, the information to be tested was extensive, from finding the incorrect ingredients to guessing colloquial names of the dishes. So, the team divided the quiz into several rounds. In the first round, competitors were required to answer as many questions as possible in under thirty seconds, followed by a rapid-fire round, where points were allotted to whoever answered first correctly. The quiz culminated with a final round of questions for each participant. Participants securing the 1st, 2nd and 3rd place were awarded certificates, gift vouchers and a gift hamper of baked goodies.

On the whole, despite the online interface restricting their ability to organize events, the French Association did not fail in making the best of what they had.

Finally, the top 5 teams qualified for the last round which was a product development and selling round.

In the final round, the teams were given some of the most basic, yet common issues faced by everyone on a day to day basis. The participants had to select one of these problems and were required to create a product to effectively overcome these problems and come up with effective solutions. They also had to market their product with a good tagline explaining its main features.

The objective of this event was to give the participants a chance to present their ideas and be a creator, an innovator, a disruptor and an adventurer. It inspired them to think like a true entrepreneur and be a game changer.

Event Name: **Unscammed**

Event Date: 29th January, 2021.

'Unscammed' was a multi-tiered event organised by the Economics Association Jr.. It focused on the recent scams and frauds which have occurred in our country. The participants had to use their willingness, determination and presence of mind, along with knowledge of past and present to unmask the true scamster.

This event was essentially divided into 2 rounds, first being the preliminary quiz round tested the overall knowledge with respect to recent scams and their specifics. The second round was a scam uncovering and investigating round. Top 3 teams from the preliminary round qualified for the second round. In this round the participants needed to uncover scams of various types and difficulty levels.

In the first level the participants had to put on their investigative hats and solve a cyber scam by figuring out the corrupt source in an email. The difficulty level escalated in the further two levels where the participants were provided with heterogeneous, complex and jumbled data pertaining to different financial scams. The participants needed to present the data in a chronological order (essentially in a format of a timeline) to summarise the scam and identify the culprits from the source and data provided. Their scam uncovering ability was tested with the help of three scams of varying difficulty.

Following data was provided as reference material:

Level 1 (Cyber scam): Biodata, Emails and call logs of hypothetical victims of the scam.

Level 2 and 3 (Financial Scam): Complex News Reports on Stock Manipulation and money laundering.

We were overwhelmed to see the active participation and enthusiasm shown by the participants as they used Harshad Mehta's brain and Chanakya's neeti to uncover the frauds. The aim of this event was to test the participants' sense of alertness and awareness and their financial knowledge. It demonstrated their investigative streak and confidence while dealing with high end economic jargons.

### THE LINE NOT DRAWN

Drawing a line is the first thing that a child learns after he holds a pencil. It appears that drawing the line is probably the easiest thing to learn and to do. But merely drawing it on paper is not enough. One also needs to learn the importance of drawing it in our day to day life. By this, I mean to say that humanity needs to be abstemious in its whims and fancies. There should be a limit or a boundary to whatever we do because morally unrestrained actions can only culminate into a catastrophe.

Why is mankind forgetting to draw the line? Why is no one understanding the gravity of the problem?

Humans have gone too far to achieve their materialistic targets. We have barged into almost every area which does not even belong to us. So much so that we have displaced and misused every other species' area, be it nature, animals, birds, or marine life. Our atomic bombs have created perpetual repercussions, so have the gas leaks from nuclear plants. We, in our greed to expand and progress, have forgotten how abundantly we are blessed by the Almighty. We are perhaps the only species that is on a mission to destroy our own planet. In the name of progress and development, we have invaded and annihilated almost all natural habitats, resources and disturbed every living being on earth.

Why is it getting so difficult to coexist? Why do we not understand that we have no other planet to go to? Everything is designed by God in such a beautiful way to support life. Then why are we destroying the set-up?

It is time that we learn our lessons. We have spread stygian darkness for our future generations. However, we just need one thing to get ourselves out of the pit in which we have fallen. And that is the determination to do something good for our planet and to know our boundaries.

There is no calamity greater than lavish desires. There is no disaster greater than greed. If we don't stop today then we would be forced to stop by the omnipotent nature through natural apocalypses and that will be the greatest pain which mankind will not be able to endure. Thus, we should start acting immediately and "Draw the Line" which has been missing since centuries. I urge mankind to draw the line and bring in the sunshine.

## **Evolution or Toxicity?**

We often blame the increasing pollution in our surroundings for our ill health and compromised well-being, but we often neglect the toxicity in our society emerging within our brethren leading to our dwindling health and growing mental imbalance. The society as a whole has been shrouded in darkness in the form of interpersonal judgement transforming our joy into a rather sorrowful and dilemmatic age of everlasting melancholy.

This darkness which keeps increasing rapidly with every passing day, is whitewashed and ignored in the name of development and an era-based transitioning. Our generation absolutely loves to dwell in the hollowness of frivolous social life, so much so that the things which seem the most imperative are often ignored.

The family, our responsibilities, regardless of gender, are questioned upon by our youth so regularly now that although, we have become relatively literate, we now use this double-edged sword to cut the past more often, than to slash our way into mental and social progress in the present as well as in future.

The human mind is bound to question certain absurdities brought about by our ancestors, and in all honesty, this is completely justified. However, after a point the entire maxim of progress is to question our beliefs only to find a solution rather than rebelling against them to prove our current progress which is merely relative.

The day we understand this basic principle and respect our society without being indifferent about our responsibilities, while finding a meaningful realm of mindfulness rather than dwelling in the frivolity of social life just to understand the real meaning of happiness and peace in society, a new horizon of possibilities will emerge.

We often believe that ignoring this toxicity is the best way to keep our mental balance intact, but when has ignoring a problem ever been an optimum solution?

We need to stand up together to make it clear in our minds and in our societies that judgement and hate is not the way to establish dominance around. Remember, a true leader always carries all his brethren together without any indifference, while a dictator holds rules over society while ordering his dominance and authority just to prove his worth to himself, so he alone can sleep peacefully.

## The Three Warnings

This write-up is of paramount importance for people adoring history. Without a doubt, India has a rich culture and an amazing history. There are some events in the past, which are so insightful that even after years, they stand to be relevant and path-breaking. I want to discuss one such incident- the 3 warnings by Dr. B. R. Ambedkar.

On 25th November 1949, Ambedkar gave a speech in the House, summing up the work done by him and the Drafting Committee. He gave a short speech on the Constitution and some of its striking features. But, at the tail-end of his speech, he gave 3 warnings about the future.

### Warning-1: Satyagraha

I know what you might be thinking right now- that how can a concept which helped us gain independence be a threat for our future? In the opinion of Ambedkar, activities like civil disobedience, Satyagraha and non-cooperation should be abandoned for the benefit of all. The reason for the same is that such acts are justifiable to a certain extent in an autocratic set-up but not under democracy.

Do you agree with this? Should popular protests be considered as threat to the nation?

### Warning-2: Political Democracy

Democracy is a concept which promotes equality and liberty. Through the drafting of constitution, politics has surely been democratized. But keeping aside political angle, are we really democratic in the true sense? In voting, vote of man and woman are equal, but does all strata of our society mean this? Is there equality in our social status? Thus, Ambedkar warned us about not ending up being democratic only from political stand-point! Should we strive for democracy in all facets of life?

### Warning-3: Blind Faith and Submission to Autocracy

India believes in bhakti, i.e., devotion and surrender to Almighty to achieve salvation. But this should not be the approach of an Indian towards politics. The logic of Bhakti might be correct from religious point of view, but it can be devastating from the political lens. Such attitude results in dictatorship. There should not be unthinking submission to charismatic authority. Even if a man is great, his greatness should not be a justification for blind devotion.

Are you surrounded by people who blindly follow a political figure without having his research done?

In conclusion, I just have two emotions. Praise and Regret.

Praise for Dr. Babasaheb Ambedkar, because the honesty in the insights he shared were extremely accurate.

Regret for not inculcating and learning from his speech. Only if someone had taken this speech seriously, India would have not been stuck in the same problems which were predicted 71 years ago.

## FEAR- A PAPER TIGER

Sometimes life puts you in an uncomfortable position, in a place where you feel you are not ready to be in, not strong enough to handle, not emotionally prepared to work with. It pushes you beyond the limits that you had placed for yourself. Life puts you in circumstances that you feel unprepared for - and the reality is, no matter how long you wait, there are some circumstances that you never can be prepared for. There are some phases that you simply need to be pushed towards in order to mature and grow. Sometimes, you simply find yourself having to taste the bitterness of difficulty in order to gain the knowledge that your soul truly needs. In life, you will find yourself being pushed out of your comfort zone, tested against your own boundaries, and learning - sometimes through blessings and other times through lessons. Sometimes, to learn the best lessons and mature in the best way you must be willing to accept the uncomfortable position life puts you in.

Remember the times when we were young? How reckless and unbothered we used to be! It did not matter what people thought of us. We were the "we" , we loved and wanted to be. Somebody's opinion of us would never affect us. We did what we liked and asked for what we wanted without overthinking. We were full of innocence. We possessed a nonchalant aura. Above all, we were FEARLESS, and this boldness was expressive. Things that we were most afraid of doing or were refrained from doing; was the first thing we would do. Oh, but then we grew up!

We were exposed to the whims and fancies of the outside world along with the dark parts of it. Now that we are older, we bear grudges so quickly, get frustrated, want to take hold of those things that are way beyond our control, we give up easily and predominantly we are scared! Scared of failure, scared of judgements, of social pressure, of missing out, of taking new steps, of starting new beginnings, of trusting new people. In a nutshell we are now scared of risking it, because of the mere thought of an erratic outcome. We dread taking a chance because we don't have the strength to go through pain. The "what if's" crawl in here. "What if everything goes wrong", "What if I lose all I have"?

My point here is, just because you lose once, you wouldn't dare to give yourself a second chance, give another try to your endeavour? For once train your mind, put in the efforts, take the risk, and give in your all. Of course, it's natural to fear the unknown, but if you don't even try, is it even worth living? Our life revolves around risks. When you let even the slightest of fear take control of your actions and decisions, you might as well in turn, end up risking 'losing a golden opportunity'. All those decisions you are scared to take, take them now; all those things you want to say, but you have just been rehearsing it in your head, waiting for the right time; say it now. Better late than never. Accept the odds, don't let a negative aftermath discourage you. I'm not saying everything will always turn out to be perfect. Perfection is an illusion. There'll be problems that come without a solution manual, but stay positive in the 50-50 probability of the happening of an event and dare to risk it.

Problems come as a blessing in disguise. They help you grow. Don't let obstacles defeat you. Make new discoveries, enhance yourself, explore yourself, and work on yourself. Everything happens for a reason. Stay positive and strong always!

The Covid-19 Pandemic has changed us to a great extent. It engaged us in finding something unique within ourselves and in the world. No matter how difficult and painful these times have been, it has taught us a lot, it made us really go and grow through hardships. We've all come out immensely stronger. Try to look at the bright side of things. Nothing lasts forever, these tough times will come to an end soon.

## Expectation is the root cause of disappointment

Ever thought about an instance when you had expected a good outcome from a work you performed diligently, but rather got a negative one? It must have disappointed you to the core, so much that you started doubting your skills and confidence.

Some would say they had humongous expectations and hence they had a tough fall. Maybe, they are right. Maybe, not. The reason for our disappointment is not the outcome, but our own expectations. In any given work, you have three possibilities; either you will meet your expectations at par or you will over achieve or else you will under achieve. We find the latter one the toughest to handle. So how could one not get disappointed by an unfavourable outcome of the work?

It is simple. One just needs to focus upon the means and the ways to achieve the desired outcome, rather than actually focusing upon the outcome. It is absolutely fine to have a benchmark which guides you through your journey. But, what you have under control is not the fruit, but only the efforts.

When you are satisfied with the degree of efforts you have put in, you will never lose your confidence or doubt your competence, no matter what the outcome is.

## Love for Travelling

“The world is a book and those who do not travel read only one page.”

Travelling is a part of life. It is a necessity to escape the monotonous routine back at home. It is when we truly find our inner soul. The biggest advantage of travelling is that one gets an experience to interact with locals out there. The locals love to hear foreigners babble in their language.

We get to experience the natural beauty and the cultural heritage of that particular place. One can wax their knowledge by travelling. We can know about their [place's] cuisines and what not! You experience both, good and bad, when you are travelling. These experiences help us to mould ourselves into adaptable human beings. Let me tell you why I love travelling. I love the excitement of it all- feeling like a wanderer, discovering new land, a new language, new currency, new people, and new adventures! Being impulsive and optimistic for nearly everything is the fun part!

The adrenaline rush of travelling excites me. Travelling broadens your mind in so many ways. You meet new people, share your experiences, rather than being caught up in the repetitive routine at home. We get to see how the world lives. I am not there to complain about how it is ‘different than back home’, but rather to embrace and accept these changes! I like landing in a new place, and then trying to figure it out- How to speak the language? How to manage my meals? How to pack my luggage perfectly so, I do not pack it for the 23rd time! Well, I do not like this mundane task but it is better than staying back home!

I love the simplicity of it all. Buying souvenirs act as memories of that place in future! Meeting new people, expressing views on certain aspects with others moulds us into better individuals. Hence, it is rightly said -

“Travel is the only thing you buy that makes you richer.”

## A PERFECT START TO A PERFECT DAY

Do you hit the snooze button on your alarm planning to wait for another few minutes before waking up? Does panic then set in that you will get late? Well, for thousands of people, it is the normal start to the day. Everyone desires to have more energy, productivity, better attitude, clearer thoughts but doesn't have a clear answer about how to achieve it.

What you cultivate in the morning will influence the way you think, feel and act. The tone of the morning will set the tone for the rest of the day. Call your alarm clock an opportunity clock and wake up to the amazing day in front of you. Detach yourself from technology for the first hour of the day and begin your day with awareness and a positive focus. Kick-start your morning by practicing gratitude and take a few minutes to smile. Drink a glass of lemon water, eat a healthy breakfast and get moving. Clear your mental chatter by writing down a to-do list in the order of priority. And spend half an hour doing something you love.

The perfect start will keep you motivated and mentally and physically ready to tackle all the challenges!!

### Lost in the city – Mumbai

Hands stink of rusted poles  
Bodies smell with sweat that rolls  
Down the body in my clothes  
The day was long  
And now the night just crawled  
Into the hall of my small adobe  
It's so aphotic, it's so cold  
I at last am all alone  
Thousand faces I come across  
Many unknown still we travel along  
I am in love with this life of yours  
You've won against time in this war  
City of dreams, nightmare for many  
You are the city of different little wars  
But still at the end when home alone  
Drenched in sweat,  
Stinking like rusted poles  
After traveling in those trains of yours  
When it's aphotic and so cold  
Night seems so angelic away from all  
The noises and million faces I come across  
I guess now I'm truly lost  
In those million faces I come across  
Effortlessly efficiently losing myself  
In the mess of yours  
I am lost in you, Mumbai

### Moon-child.

My heart is an island,  
Inside this castaway.  
Encircled by the blue,  
I desire to cruise someday.

Abandoned on this far off shore,  
I plan for my getaway.  
Made a beeline for the Bay of Love,  
Where quiet, clear waters stay.

My heart is only an island,  
So out of sight,  
Past the blue horizon,  
I live from day to day.

Abandoned on this desert shore,  
I plan for my break.  
Gone to the Sea of Change,  
Where love is made.

My heart is only an island,  
Where nobody else can see,  
The dejection, I should admit,  
That conceals where it counts in me.

To be kissed by moonlight,  
Furthermore, stroked by stars,  
Hung in obscured blue,  
Moving from Jupiter to Mars.

To be found by the light of the moon,  
Furthermore, cherished under a darkened sky.  
Allow the sun to disregard me;  
It never heard me cry.

Since there's an exceptional thing about moonlight,  
Like it was made only for me,  
Since regardless of how awful things are,  
I have the moon waiting for me.

## Introspection?

As this ray marches down the window  
Such mayhem in the dust it frees,  
You can either ponder upon it as the way of life or  
just let the granule disappear  
Light just doesn't seem to illuminate some dreams;  
As this ray marches down the window  
Smash this hand into the naked  
warmth that focuses on not just the sacred,  
Dust just seems to never settle  
Why not introspect this into our dreams ?  
As this ray marches down the window  
Someone just dropped the curtains  
Halted the march like anything!  
Smashing the head from back they say,  
"Study, you idiot , daydreaming isn't the way."

## PALACE OF ILLUSIONS

Danesh Vora  
TYBCOM A119

There's this palace full of illusions  
Similar to our world with pouring out delusions  
Mirrors like pines in forests dense  
Each time I move ahead  
Either I fall or stumble ahead of fence  
There are glasses transparent  
An ideal universe could be seen through  
Glitter and shine filling the sky  
But were they full of tears or smiles?  
Hands reaching out to fragile dreams  
Hoping to see people beam  
Unfading frost covering the petals  
Winter was just a season- one day the snow shall settle  
Fate staring right into my eyes  
As I blink only to realise  
The glass which I was planning to crash  
Was also just mirage  
Even the gliding waters won't excite me now  
Still, I'm trapped in this palace  
Which I claimed to be- full of illusions  
Slowly as I row my canopy in this cage  
I wish if this wasn't the reality  
I wish that people weren't so delusional  
Like an invisible page  
Oasis have at least forbidden hopes  
But I - I couldn't find even one ray of it here  
To trope!

## True Freedom

Independent we dwell in a democratic nation  
“But is it true freedom?” rises a question.

Do we stand with truth and show our bravery?  
Are we out from corruption's slavery?  
Is every rupee rightly earned?  
For environment and world are we concerned?  
Are women allowed to raise their voice?  
Is every girl free and can safely rejoice?  
Isn't female infanticide the gravest crime?  
Does every individual achieve justice in time?  
What about child labour and child trafficking?  
For farmers, labourers, what are we doing?  
Is there education and employment for all?  
Have we broken the discriminatory wall?

For true freedom, let's together shout.  
Unity brings victory, there's no doubt.

## Science and Spirituality

Two opposite poles which have a connection;  
Giving mind a right direction;  
Lightening up a novel perception;  
And exploring world to a greater dimension.  
Science and spirituality is a junction,  
Wherein faith and logic together function.

Science with spirituality is body with life;  
A bond which can't be broken with any knife;  
Which goes hand in hand without any strife.

Spirituality stands strongly on trust;  
Science rules all space and crust.  
Both work for the same ground;  
“Humanity”, together they make sound,  
And an equal help they expound.

Science is brain, Spirituality is soul;  
No comparisons! Both play their own role.

## Childhood

Heart with innocence,  
Face with smiles.  
Childhood is reminiscence  
How soon time flies!

Days when we would suck our thumb,  
And sleep with the lullaby's hum.

When on mom's lap we had our snack;  
When we'd horse ride on daddy's back.

When we prattled nineteen to the dozen;  
When we were too quick to raise a question.

When moral stories granny would tell;  
When in delight we would happily yell.

When we kept our toys cuddled tight;  
When ephemeral was anger and fight.

When with colours we devastated walls;  
When we had: less books, more dolls.  
While going to school those harsh wails;  
Remember mom tying two ponytails?

Of childhood it was a glimpse;  
Just a glimpse, but what a smile it brings!

## THOUGHTS

Thoughts are the best place to wander alone,  
The mystical opinions were once innovated here,  
The chaotic place to end the gripping silence of life,  
The only place where it's fine to have fairy tales and fantasies  
It's the journey to an incredible destination MIND,  
The light of hidden flowers were once buried and bloomed here  
The silhouette trails were once mended here  
The place which engages the choices of right and wrong  
The phantasms or the angels  
The place where you belong!

## DOWN THE MEMORY LANE

A little girl asked her mother,  
If you had the power to get,  
Anything you want,  
What would you ask for?

Smiling, her mother said,  
Rather than asking for money or gold,  
I would wish to go back in time instead,  
Because it was a sight to behold.

How I wish I could revisit my past!  
The time when I had such a blast.  
Being a child, I was so gullible,  
That the world never seemed so dull.

The moments from my childhood,  
Those memories flashing through my mind,  
Laughing and playing in the neighbourhood,  
With a heart so kind,

Those petty fights, the carefree life,  
It reminds me of when I was five,  
All I would say is, live in the moment,  
Because nothing is permanent.

Seize these moments in your life,  
Enjoy every smile, get past every fear,  
Never forget to have fun,  
Because life- you only get one!

## THE CLEAR SKIES

Looking through the alluring sky,  
I lay on the grass wondering why,  
Only birds can fly,  
While we sit and sigh,

The finches as they flew,  
Gazing at the people few,  
High in the air,  
Are they soaring?  
While beneath, to be fair,  
Seems boring,

The blind blue sky,  
Instantly filled by,  
The clouds floating high,  
Cloud with its unrealistic shape,  
Often becomes an ape,  
Or a giant snowflake,

One must admit,  
It's a miracle,  
Without the sky,  
Our world would be dull,  
The sky thus,  
Is an epitome,  
Of peace and serenity!

## ANXIETY AND HOPE

Like a bunch of heavy boulders,  
It rests on her shoulders,  
It's not like she's not aware of It.  
But it's been there for so long,  
That she's agreed on ignoring now  
Of course, when It was new to her,  
She was confused herself.  
Cause she didn't know why she was feeling like this,  
Feeling like she was constantly being watched.  
Or like she was breathing but barely.  
Like every second could be her last....  
It's not like she didn't try to tell people,  
But no matter what she told,  
"It's just a phase" or "it'll go away!"  
Was all she ever got.  
A little attention here  
A little there, and then IT wouldn't dare.  
To show up and ruin her life.  
The one that she planned with so much love and care.  
And even her friends stopped trying after a point.  
'Cause maybe they did not know how to get her back.  
Or were they just tired of her "theatrics" as they liked to call them.  
Even she understood that and tried her best to be more bubbly and happy around them,  
'At least it was making them happy" she would say.  
Then again it would come back,  
This time maybe crawling from under the bed,  
But once more her anxiety would make its presence known,  
And take her to the worst-case scenario.  
"I did not choose this" "I just want this to stop!"  
These were her only constant thoughts,  
And just like that, once again,  
She cried herself to bed,  
No, it was never a curse,  
All she wanted was just to be heard.  
I don't know if today she's okay or not,  
For I have never met her personally.  
So,  
All I can do is HOPE.  
That she hasn't lost hers  
And one day,  
She will be her beautiful self again.

## UNSEEN HAPPINESS

A spark,  
A flame,  
A lamp in the darkness,  
Or a ray filled with hope,  
In the darkest of nights,  
Like a bright little star,  
There comes many a moment,  
From not very far,  
Yes, deep in my heart,  
Just so very close,  
A sweet simple word,  
A sincere wish,  
A spotless spot of conscience,  
Not made of precious gems,  
Or sparkling metal gold,  
I wish for a light ,a tiny flame,  
To fill up our lives,  
During the pandemic with happiness and light .  
My heart waiting to see,  
Times when one is grateful for all the blessings ,  
Times when in the warmth of our hearts,  
Scattered like blooms of spring time,  
In the wholeness of being complete,  
No waits  
None in despair,  
Just looking forward to a time that heals.  
Praying that abundance lives in our hearts,  
Like a whole hearted smile,  
And countless colours paint the scene,  
Glorious kind Nature,  
Pouring life into our being .  
At times ,conflicting  
At times, comforting,  
A belief in the goodness,  
That belongs to all,  
In silence ,in words,  
I seek ,the beauty in all,  
A prayer of calm,  
A wish for time to be the balm,  
I want the best there is ,  
For us ,for you and for me .....

कोरोना, तू ये कैसा रंग लाया...

कोरोना तू लाख बुरा ही सही,  
पर तुझसे कुछ अच्छा भी आया ।  
धरती पे एक नया इतिहास बनाके,  
ज़मीन से आसमान तक तू तूफान ले आया ।  
रंगो के इस महीने में,  
कोरोना, तू ये कैसा रंग लाया...

कल तक जिन्हें सांस लेने की भी फुर्सत ना थी,  
तेरे मौत के खौफ ने उन सांसों को भी सावधान किया ।  
हर पल दौड़ती ज़िन्दगी को भी,  
तूने थकान दूर करने का मौका दिया ।  
कभी ना सोने वाली सपनों की नगरी को भी,  
आज तूने लॉकडाउन में डालके थाम लिया ।  
कोरोना, तू ये कैसा रंग लाया...

फ्रेंच - किस, हैंडशेक को dont's list में डालके,  
"नमस्ते" ने सबको swag बनाया ।  
इंटरनेशनल फ्लाइट्स को रद्द करके,  
ऑल टाइम hit music का वीज़ा पास करवाया ।  
कभी ना दिखने वाले भगवान का भी,  
डॉक्टर, सफाई कर्मचारी, पुलिस, आदि... के रूप में दर्शन करवाया ।  
कोरोना, तू ये कैसा रंग लाया...

Late night parties से चुराई हुई बच्चे की नींद को,  
आज फिर टाइम पे सोना सिखाया ।  
Extra classes में उलझे हुए बच्चों ने,  
आज सही माइनो में summer vacation मनाया ।  
Snap filters से जब फुरसत मिली,  
तो 90's के फोटो एलबम को फिरसे खुलवाया ।  
कोरोना, तू ये कैसा रंग लाया...

Competition की पढ़ाई का stress हटाकर,  
अलमारी में पड़े drawing books की तरफ ध्यान भटकाया।  
गली मोहल्ले में क्रिकेट बंद करवाके,  
बचपन वाले कैरम को फिरसे बाहर निकलवाया।  
सिनेमा और मॉल्स में ताला लगवाके,  
अलमारी में धूल खा रहे नए कपड़ों से वाकिफ करवाया।  
कोरोना, तू ये कैसा रंग लाया...

Junk food पे ज़िंदा रहने वालों को,  
तूने घर के खाने का स्वाद चखाया।  
खाना waste करने वालों को,  
हर दाने की कीमत करना सिखाया।  
ज़रूरत मंद की मदत करके,  
तूने इंसान के अंदर इंसान जगाया।  
कोरोना, तू ये कैसा रंग लाया...

Businessmen को business से छुट्टी देकर,  
रिश्तों के प्रॉफिट और लॉस में लगाया।  
बहुत से रिश्ते छूट गए थे पीछे,  
आज मोबाइल के कॉन्टैक्ट लिस्ट ने याद करवाया।  
"काम कहां तक हुआ?" पूछने वाले लोगों को भी,  
"कैसे हो?" यह पूछना सिखाया।  
कोरोना, तू ये कैसा रंग लाया...

रिश्वत के लिए फैले हुए मैले हाथों को,  
आज सैनिटाइजर से साफ करवाया।  
हर रैली का अलग tagline हटवाके,  
पूरी दुनिया में "Corona Go, Go Corona" का नारा लगवाया।

मजहब के नाम दंगे करने वालों को,  
आज "Together we can and together we will fight" का नारा साथ लाया।  
कोरोना, तू ये कैसा रंग लाया...

रास्तों पे गाड़ियों का शोर कम करके,  
तूने आज फिर कोयल का स्वर सुनाया।  
Pollution का धुंआ रुकवाके,  
फिर 'Twinkle twinkle little star' दिखाया।  
21वीं सदी के रोबोटिक ईंगों को,  
कुद्रत के हाथों फिर एक तमाचा लगवाया।  
कोरोना, तू ये कैसा रंग लाया...

गुटका, तंबाकू खा के थूकने वाले लोगों का,  
मास्क पहना के मुह बंद करवाया।  
घर के नौकर को छुट्टी देकर,  
हर व्यक्ति को सही माइनो में स्वच्छता अभियान का हिस्सा बनाया।  
9:00 to 9:00 की जाँब में फसे लोगों से भी,  
5:00 बजे ताली, थाली और शंख बजवाय।  
कोरोना, तू ये कैसा रंग लाया...

'Janta Curfew' लगाके, तूने 'Care for you' का पैगाम फेहलया,  
प्रधानमंत्री की आंखों में भी तू आज पानी ले आया,  
कितनी रंग - बिरंगी ज़िन्दगी को तूने बेरंग बनाया,  
यूं करते करते, पूरे विश्व पे तूने अपना रोब जमाया ...

इंसान को तूने कठपुतली का खेल खिलवाया,  
धरती और प्राणियों पे हो रहे अत्याचार का,  
उसिसे जुर्माना भरवाया,  
और कुदरत का ये सबक इतिहास में समाया...

लेकिन यकीन है हमें, तू एक दिन इस दौड़ में इंसान से हार ही जाएगा,  
रहेगी तो कुदरत हमेशा इंसान से ऊपर ही,  
पर इंसान की गलतियां तू थाम नहीं पाएगा !!!

और कुछ समय में ज़िन्दगी फिर पुरानी पटरी पर आ जाएगी,  
और मनुष्य फिर स्वार्थी बन जाएगा...

क्यों की कलयुग के इस दौर में,  
कौनसा शंकर ज़हर पिएगा ?  
कौनसी माता का त्रिशूल उठेगा ?  
कौनसा विनायक बचाने आएगा ?  
कौनसा राम वध करेगा ?  
कौनसा कृष्ण शंख बजाएगा ?  
और कौनसा महावीर अहिंसा सिखाएगा ?

और फिर इंसान का लालची दिमाग षड्यंत्र रच जाएगा,

तब कोरोना तेरा रंग फ़िका पड़ जाएगा...

ये फूल ही तो हैं, जो हमें जीना सिखाते हैं...

कुछ बोते हैं मिट्टी में,  
तो कुछ सूरज की रोशनी में मुस्कुराते हैं।  
और कुछ महकते हैं रात के अंधेरे में  
पर ये कभी खिलना नहीं भूलते हैं।

कुछ इत्र की महक बन आते हैं,  
तो कुछ शरबत का स्वाद बन जाते हैं।  
और कुछ रोग की दवा बन के हकीम की तरह पेश आते हैं,  
पर किसी भी रूप में ढल कर इंसान के काबिल बन जाते हैं।

कुछ उम्मीद जगाते हैं,  
तो कुछ सुकूँ से जीना सिखाते हैं।  
और कुछ मौसम के हिसाब से सवरने की सीख दे जाते हैं।  
हर पल जिंदगी में लड़ने की हिम्मत दिलाते हैं।

कुछ दोस्ती का इज़हार करते हैं,  
तो कुछ प्यार का इकरार,  
और कुछ रूठे हुए को मनाने का राज़।  
हमेशा रिश्तों को मोती मानकर एक धागे में बांधते हैं।

कुछ चादर बन के अल्लाह की दरगाह में दिखते हैं,  
तो कुछ बाप्पा की मूर्ति को और सुंदर बनाते हैं।  
और कुछ माँ अम्बे की पूजा की थाली सजाते हैं।  
शुक्र है, यहाँ तो कोई हिंदू- मुसलमान या स्त्री - पुरुष का भेद नहीं करता है।

कुछ तुम्हारी शादी की रस्म निभाते हैं,  
तो कुछ रंगोली बन के दिवाली के त्यौहार को और सुंदर बनाते हैं।  
और कुछ तुम्हारे कफन पे बहाये जाते हैं।  
बस उत्सव के माहौल से उनके प्रकार और रंग बदल जाते हैं।

ये कितना कुछ सिखा देते हैं , निभाते हैं , इज़हार कराते हैं,  
और कितने ही रिश्तों को नाम दे जाते हैं,  
और कितने ही बेरंग जिंदगी में रंग भरते हैं।

ये उस खुदा की एक ऐसी खूबसूरत रचना है,  
जो मिट्टी में घुलने के बाद भी फिर खिल जाते हैं।

ये फूल ही तो हैं , जो हमें जीना सिखाते हैं।

MAA

Usse rishta kuch anokha sa hai,  
Ye duniya se kuch pehle ka hai.  
Duniya ke liye saikadon kirdaar nibhati hai woh  
Par mere liye meri maa hai woh.

Mere hasne pe hasti hai,  
Mere rone pe roti hai.  
Aur kisi psychiatrist ki tarah  
mera man bhi padh liya karti hai.  
Mere khushiyon ka mahal bada sundar sajati hai,  
Mere dukhon ko kahin dur fek aati hai.  
Mamta ki chaya me hame hamesha surakshit rakhti hai  
Ye maa hamara kavach banke khadi rehti hai.

Pyaar to woh mujhse aasmaano ki unchaiyon aur samundar ki gehraiyon se bhi jyada karti hai,  
Magar ye sanskar dene ke chakkar me kabhi daat bhi liya karti hai.  
Uski daat ka dukh  
mere se jyada usey hua karta hai.  
Meri khushiyon ka sukoon  
Mere se jyada uske chehre pe dikha karta hai.  
Log kehte hai maa bhagwan ka roop hai  
Ha usme koi shakh nahi.  
Par agar me kahoon bhagwaan maa ka roop hai  
Toh usme bhi beshaq koi khed nahi.

Uss se rishta kuch anokha sa hai,  
Ye duniya se kuch pehle ka hai.  
Duniya ke liye saikdon kirdaar nibhati hai woh  
Par mere liye meri maa hai woh.

### बचपन के दिन

देख बच्चों को खेलते, आ जाता है याद  
बचपन का वो वक्त सुहाना!!

माँ की लोरियाँ सुनकर सो जाना,  
थोड़ी देर में उठकर माँ को परेशान करना!  
पापा के कंधे पर खेलना,  
काम करते वक्त उनको तंग करना!  
दादी की कहानियाँ सुनना और  
दादा के साथ मस्ती करना!  
देख बच्चों को खेलते, आ जाता है याद  
बचपन का वो वक्त सुहाना!!

दोस्तों के साथ लड़ना झगड़ना ,  
कभी रूठना तो कभी मनाना!  
एक खिलौने के लिए रोना,  
न मिलने पर पूरा घर सिर पर उठाना,  
स्कूल न जाने के बहाने बनाना,  
होमवर्क न करने पर डॉट खाना!  
देख बच्चों को खेलते, आ जाता है याद  
बचपन का वो वक्त सुहाना!!

न किसी बात की चिंता करना,  
न कुछ खोने से डरना!  
बड़े बड़े सपनों का घर सजाना,  
अपने अंदाज में हमेशा मस्त रहना!  
जिद करके अपनी बात मनवाना,  
सभी को अपना दीवाना करना!  
देख बच्चों को खेलते, आ जाता है याद  
बचपन का वो वक्त सुहाना!!

बारिश में भीगने का मज़ा उठाना,  
बीमार होने पर माँ को सताना!  
तितिलियों के पीछे भागना,  
कई बार गिरकर वापस खड़ा हो जाना!  
लगता है मधुर बचपन का जमाना,  
होता है ये खुशियों का खजाना!  
देख बच्चों को खेलते, आ जाता है याद  
बचपन का वो वक्त सुहाना!!

## मंजर

ऐ राही छुपा लेना मुझे अपने दामन में, शतरंज सी ज़िन्दगी के मोड़।  
ले चल अपने उन सितारों के अम्बर में, यहाँ शोर ही शोर है।  
हाँ, नहीं चुरा सकते वो किसत मेरी, किन्तु हर किसी के वास्तविकता का कोई न कोई चोर है।  
दूब गई हूं मोती स्वरूप जिंदगी को पाने केलिए,  
पानी मे न तैरन आवे हैं नाहीं कउनो गोताखोर है।  
और ईश्वर की दी हुई उपहार है जिंदगी, जीवन-मरण में यह हार जीत की होड़ है।

सोच रही हूँ कायल हो जाऊ तेरी, जिस तरह तेरे पेंच और दांव है।  
दर्पण भी न सच दिखा पावै, हृदय में अलग सा ठहराव है।  
बाटेंगे जिंदगी, जिंदगी को जहा खुशी पराई और दुख मेरा हमराव है।  
और सोचे बचाएंगे खुद के साथ तुम्हे भी,  
लेकिन ध्यान आया बीच नदी में मेरी नाव हैं।

ऐ मंजर! तेरा रूठ जाना जिंदगी के थपेड़ों सा लगता है।  
तू थामेगा हाथ खुशनुमा वेहम सा लगता है।  
अब तो शख्खियत भी अनजान है उस शख्स से, जिसको रो पड़ना भी बहाना सा लगता है।

और मैं क्या कहूँ उस इंसान से, जो अपने ही दर्द में बेगाना सा लगता है।  
अब आ जाए कोई भी मुश्किल क्यों न, ये मन्जर अपनाया सा लगता है।

## खरा आनंद

विचारले मला कुणी एकेदिवशी,  
खरा आनंद येतो टिकवता कसा?  
भविष्याच्या पाठलागावर सतत न लागता,  
येर्इल क्षण आताचा भरभरून जगता.

विचारले मला कुणी एकेदिवशी,  
खरा आनंद दिसतो कसा?  
देही केवळ शोभतो शृंगार सोने -चांदी -कांस्याचा,  
मनी परंतु भरतो दागिना एका समाधानी हास्याचा.

विचारले मला कुणी एकेदिवशी,  
खरा आनंद होतो व्यक्त कसा?  
नाही गाजवित वर्चस्व अहंकाराचा अंदाज,  
कान तृप्त करितो परंतु साधा एक नम्र आवाज.

विचारले मला कुणी एकेदिवशी,  
खरा आनंद येतो अनुभवता कसा?  
नाही टिकत स्थान राजेशाही वाटणार्या पंचपक्वान्नाचे,  
प्रेमाने भरवलेल्या वरणभाताच्यासमोर मानाचे.

विचारले मला कुणी एकेदिवशी,  
खरा आनंद येतो मिळवता कसा?  
मन प्रसन्न करितो तो देवधर्म,  
व आयुष्यभरासाठी पुण्याई कमावून देतो तो मानवधर्म.

असो मनुष्य गरीब, अयशस्वी, दुर्बळ,  
नांदतो प्रत्येकाच्या आयुष्यात घटकाभर हा आनंद.  
आयती अपेक्षा केलेल्या आनंदापेक्षा निर्माण केलेला आनंद,  
विणतो अतूट, सदानंदाचे बंध!!!

## संयम

तणावपूर्ण असलेल्या या जगात  
लोकांना त्यांच्या अपेक्षा पूर्ण करायच्या आहेत.  
त्यांच्याजवळ कशाकडेही लक्ष देण्यास वेळ नाही  
ते बोलण्यापूर्वी आणि शिकण्यापूर्वी कसलाही विचार करत नाहीत.

लोकांना त्यांचे काम द्रुतगतीने पूर्ण करायचे आहे  
त्यासाठी ते जे शक्य असेल ते करतात.  
इतर लोकांना काय वाटते याची त्यांना पर्वा नाही.  
त्यांना फक्त त्वरित यश हवे आहे.

पूर्वी संयम हा राजा होता  
त्याने एक उत्तम बंधन निर्माण केले  
कोणाचेही शोषण केले नाही कोणालाही फसवले नाही.  
त्याच्या राज्यात प्रत्येकजण प्रेमळ आणि काळजी घेणारा होता.

आता धीर हा इतिहास झाला आहे  
धैर्य शोधणे हे एक रहस्य आहे.  
पूर्वी स्वतंत्र असलेले लोक आता घाईत आहेत,  
काम जलद करण्यावर त्यांचे सर्वस्व अवलंबून आहे.

अधीरतेमुळे निराशेची पातळी वाढली आहे  
आणि बरूयाच लोकांना नैराश्य आलं आहे.  
समाधानी राहण्यासाठी धीर कसा धरावा हे त्यांना माहित नाही  
आणि या प्रक्रियेत बरेच बंध तुटले आहेत.

धैर्य हा आपला खजिना आहे.  
ही नैतिक मूल्याचे निर्देशक खूण आहे.  
तणावापासून दूर राहण्याचा हा एकमेव मार्ग आहे.  
हा सर्वोत्तम प्रतिबंधक उपाय आहे.

### La pollution

La pollution est l'une des plus grandes menaces pour la société. C'est devenu un terme courant pour les enfants.

Si le niveau de pollution continue d'augmenter, ce sera le plus grand défi à relever à l'avenir.

La pollution est principalement de cinq types - la pollution de l'air, la pollution de l'eau, la pollution sonore, la pollution des sols, la pollution radioactive, etc.

La pollution a un grand impact sur notre manière de vivre, en affectant sa qualité.

La qualité de l'air se détériore en raison des diverses émissions des industries, des véhicules, etc.

Il devient difficile pour les gens de respirer et d'entraîner des problèmes comme l'asthme.

L'eau est polluée par tout type de polluant. En raison de ces polluants, la vie des animaux marins est affectée dans une plus large mesure.

En raison du bruit, de nombreuses personnes ont perdu leur capacité auditive.

Donc, il faut essayer de réduire la pollution. Il y a plusieurs façons de réduire la pollution au niveau individuel. Par exemple :

Il ne faut pas utiliser les articles plastiques. Les déchets doivent être séparés en déchets humides et déchets secs.

On peut planter des gaules dans le jardin. On doit utiliser les énergies renouvelables.

Il faut éteindre les lumières et les ventilateurs lorsqu'il n'est pas nécessaire.

Il faut suivre les 3R: réduire, réutiliser, recycler. Il faut utiliser le transport public au lieu des véhicules privés.

La terre est comme Notre mère. Elle donne toutes les choses que nous voulons. Donc, Il est notre responsabilité de la protéger. On ne doit jamais nuire à notre environnement. Donc une terre propre sans pollution fera de la terre le meilleur endroit pour vivre .

Merci

## L'amour

Un mot dont tout le monde est conscient. Mais connaissons-nous vraiment le vrai sens de l'amour? Peut-être que ce mot est si fréquemment utilisé que quelque part il a perdu sa vraie signification et son sens. L'amour n'est pas seulement entre une fille et un garçon, mais bien plus que ça. C'est ce qui est évident dans la nature depuis l'aube de temps. L'amour des arbres avec le vent. La façon dont les arbres dansent lorsque le vent bouge est le meilleur exemple auquel je peux penser. Mais il y a aussi des animaux sauvages et domestiques qui s'aiment et se soucient si énormément que nous ne pouvons même pas le comprendre. Même en tant qu'humains, il y a tellement beaucoup de types d'amour - l'amour d'un père pour sa fille, l'amour d'une mère pour son fils. On peut aussi aimer les loisirs et passions comme chanter, danser, ou même un petit acte comme passer du temps avec nos familles. Mais le plus grand d'entre eux est l'amour des humains pour Dieu. Autant que nous l'ignorons dans nos vies trépidantes, Dieu fait connaître sa présence en formes variées. Il peut s'agir d'un étranger aidant quelqu'un, d'un acte de gentillesse dont on ne parlera peut-être jamais mais qui fera sourire les gens, et bien plus encore.

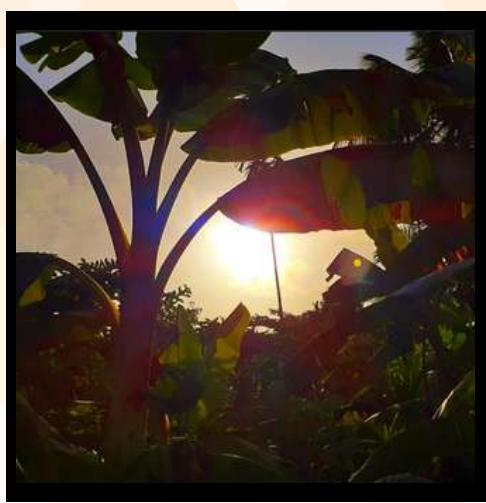

Alors élargissons un peu notre état d'esprit et essayons de trouver l'amour dans les petites choses qui nous rendent heureux. Apprécions les gens qui nous entourent et ceux qui prennent soin de nous. Parce que la vie est trop courte pour être triste. Alors, profitons de chaque instant que nous avons mais aussi, traitons les gens et les choses autour de nous, avec gentillesse et un peu d'AMOUR!!
