This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this software or related documentation is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

About this Document

Oracle Corporation acquired MICROS and its Torex products. All further references to Torex should be considered as Oracle Corporation.

1 Overview

An Installation routine that has been developed by Torex to install the 3.11 Version of Torex Active Business Series

1.1 Operation/Description

Torex has developed an installation routine that will with user prompts deploy the following software components and directory structure:

Torex Active Business Series Back Of House Software

Torex Active Business Series Front Of House Software

SQL databases dbBOS, dbCD

VB.Net Software elements

Windows System Services (installed and set to 'disabled')

Supporting Registry Settings

Supporting Batch Files

The installation routine covers both installation and full back out (removal of all Torex installed software components, databases and directories).

If during any stage of the installation routine process there is a failure, then a back out process will be initiated that will remove the installed components.

The installation routine will have the ability to be re-run should it be required in the event of a failure.

5 Observations / Constraints / Dependencies

5.1 Observations

None

5.2 Constraints

No previous version of Torex Active Business Series software installed (full install / upgrades)

5.3 Dependencies

- Microsoft .Net Framework v1.1
- Microsoft .Net Framework v2.0 including EventLogMessages.dll
- Microsoft SQL 7 SP4, SQL2000 or SQLExpress 2005,
- Internet Explorer 5 or higher
- Internet Information Services (IIS) v5.0 for WebReporting Functionality
- Microsoft Operating System Windows 2000 or Windows XP

6 Error Handling

Every routine developed must contain an error handling routine. This will allow system errors to be passed up to the user interface where the appropriate action can be taken. All errors must be trapped and handled either by the routine where the error occurred or passed up to the next level. The last level will be the user interface where the error will have to be reported and/or handled in a manner that reduces user discomfort.

7 Un-installation

This Installation can be removed by using the Add/Remove software option within Microsoft Windows.
